National Perspective from National Association of Home Builders (NAHB)

From David Crowe, NAHB chief economist: "After a sluggish start to 2014, the Home Builders/Wells Fargo Market Index (HMI) has stabilized in the mid-to-high 50s index level trend for the past six months, which is consistent with our assessment that we are in a slow march back to normal. As we head into 2015, the housing market should continue to recover at a steady, gradual pace."
